

## Manning & Napier Text Message Terms & Privacy Policy

Manning & Napier<sup>i</sup> uses text messaging through CellTrust's SL2 to communicate with its consumers in compliance with applicable laws and regulations.

- We use text messages as a form of communication only with individuals who have indicated to us that they consider text an acceptable form of communication.
- We will ensure that individuals always have the ability to stop us from communicating by text message or to get help from us about the text messages that we send.
- Text messages with us are captured and recorded as required under applicable laws and regulations.
- Carrier message and data rates may apply.

### Consent to Text Message Communications

When you let us know that text messages are an acceptable form of communication for you, you are expressly authorizing us to contact you at the phone number you used to consent to text communications, and you are agreeing that we may communicate with you by text message in accordance with these text message terms and privacy policy.

Please understand that under the laws in certain jurisdictions, even though each text message we send to you is drafted and sent by an individual at our company, the text communications may be considered automatic telephone dialing systems. Additionally, the content in the text messages we send may be considered informational or marketing in certain jurisdictions. By letting us know we can text you either by telling us to text you, sending us a text that requests a response, or completing a form that states you consent to text messages, you are consenting to these communications.

**Even after you consent to receiving text messages, you may opt out of such communications at any time by sending SL2STOP to the phone number that you no longer want to send you text messages, or you can contact SL2help@celltrust.com to opt out or help us understand what types of text messages you do not want to have sent to you.**

Opting in to receive text messages from us is not a condition of your agreement with us or use of our services; however, some communication capabilities with us may be impeded without your consent to receive text messages.

### Text Messaging Privacy

We will not sell any personal information obtained as part of our text messaging communications with you, and we do not permit our third-party suppliers, vendors, or contractors to sell any personal information obtained in the course of our business relationship related to our text message communications with you. For information on how your information is used by CellTrust as our text messaging vendor, please see CellTrust's privacy policy at <https://www.celltrust.com/privacy-statement/>.

Furthermore, mobile information will not be shared with third parties/affiliates for marketing/promotional purposes. The descriptions of how we use information elsewhere in our company privacy policy exclude the information you provide as part of your consent to receive text messages from us; this information will not be shared with any third parties and will only be used to document your consent to receive text messages, to send those text messages to you, and to comply with any applicable laws and regulations.

For additional information on how your information is used by Manning & Napier please see Manning & Napier's privacy policy at <https://www.manning-napier.com/media/legal/privacy-policy.pdf>

## HOW OFTEN WILL I RECEIVE COMMUNICATIONS?

The frequency of text messages and calls you receive will depend upon your relationship with us. Just as with other communication tools, some individuals may communicate with us more often than others.

If you feel you are receiving more communications than desired, you can let us know or opt out of receiving communications by **sending the opt-out keyword SL2STOP**, and that number should no longer be able to send you communications. Alternatively, you can contact [SL2help@celltrust.com](mailto:SL2help@celltrust.com) for assistance.

## HOW DO I OPT OUT OR STOP RECEIVING TEXT MESSAGES OR VOICE CALLS?

If you feel you are receiving more communications than desired, you can let us know or opt out of receiving communications by **sending the opt-out keyword SL2STOP**, and that number should no longer be able to send you communications.

*Helpful Hints: The opt-out keyword needs to be sent from the phone number where you want to stop receiving messages. If you have more than one phone number enrolled, you will need to follow this process with each phone number or contact us for assistance. Alternatively, you can contact [SL2help@celltrust.com](mailto:SL2help@celltrust.com) for assistance.*

## WHAT DO I DO IF MY PHONE NUMBER CHANGES?

If your phone number changes, you should let us know to avoid your messages being sent to your old number. Ideally, you should follow the opt out process described above before you change your phone number. You will also need to let us know that it is ok to send you text messages to your new number.

## WILL YOU SEND ME ADS OR MARKETING OFFERS?

Under some laws “marketing” can mean any offer of goods or services, including someone telling you about a new product that might help you. Manning & Napier will not send you ads or marketing through text message, nor will CellTrust even though we are using their SL2 product. If you have questions about the specific types of text messages you will receive, please contact us. We are happy to work with you to ensure you only are receiving text communications that you want to receive.

For additional information, please see [www.celltrust.com/tc1](http://www.celltrust.com/tc1), text SL2HELP to us, or reach out to [SL2help@celltrust.com](mailto:SL2help@celltrust.com).
